When it comes to food, whether at Chickasaw, The Peabody or on the golf course, it is very difficult to suit everyone's tastes at every club event. We have tried to mix up the menu from event to event this calendar year. Your Club Board sincerely hopes your decision to attend or pass on attending club events is not strictly limited to what is on the menu. We hope you will join us for education, networking and good spirited Memphis World Trade Club camaraderie.

Please RSVP for the luncheon at the club website www.memphisworldtradeclub.com

Port Night Note

We had 1,015 people attend Port Night this year. The Port of New Orleans was back and we were all very thrilled by this. All feedback was we had a tremendous success! A few steaks were undercooked so we do apologize and are planning to go back to chicken in 2007. If you have any digital pictures from the event you would like to share with the club, please e-mail them to our webmaster Don Koehler at dkoehler@midssouth.rr.com

New Website Coming Soon

The new website is almost ready to launch. It is a tremendous undertaking and close to being finished. Every member will soon have their own unique username and password. It will be valid as long as your club dues are current. There will be only one online shared member database. You will have access to this in order to maintain and keep your information current. Also, dues will begin to expire exactly twelve months after renewal and you will receive personalized e-mail notice in advance of this expiration. This will eliminate mass renewals and allow you as members to keep a better handle individually on your club membership status. Also, since this online information will be more current, those of you who still want a printed directory will be able to do so at any time by downloading and printing a more current member directory from the website.
